

Eye Benders The Science of Seeing and Believing

By Clive Gifford

Barron's Educational Series. Paperback. Book Condition: New. Paperback. 64 pages. Dimensions: 8.8in. x 7.0in. x 0.4in. Kids will be left astounded by this book of crazy optical illusions, and they'll be amazed as they learn the science behind how our brain and eyes work together to fool us all the time. The fun begins with an engaging look at the biology behind the brain and eyes, complete with cool diagrams and a colorful map of the brain. Then they'll get to the core of the illusions, learning why some printed pictures appear to swirl madly on the page, how two colors can appear to be different when they are actually the same, how our eyes can pick out complete images in random pattern, and much more. From color conundrums to plays on perspective, the illusions in this book will leave readers wondering if they can ever really believe what they see. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

A whole new electronic book with a new point of view. It can be full of knowledge and wisdom. It's been written in an exceedingly simple way which is only following. I finished reading through this pdf in which really modified me, modify the way in my opinion.

-- **Arianna Nikolaus**

This ebook is wonderful. I have got to go through and so I am certain that I am going to likely to read through once again again later on. You will like the way the article writer compose this ebook.
