Some are interested in writing, but don t know how to get started or know proper format, and others don t really like writing, but need to learn how to write a proper essay in order to get through college. This teaching textbook teaches one to write from the beginning to the end, and contains everything you need for a lesson planner to teach your students how to write anything. This book contains everything you need to teach a composition course successfully. From grammar review to commonly misused words, to how to write different styles of essays. You may even find that this will be a good refresher for your own writing as well. Great for the teacher as well as the student. Valerie Hockert has taught composition for over 20 years at a college level, has many published works, and has a PhD in Literary Studies.
